WSTIMS FOR WINDOWS USERS NEWSLETTER

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 1.0.1.78 is Available for Downloading

The updated version 1.0.1.78 is now available for download and has fixed several glitches in the officials' forms preparations, along with NCWSA updates.

Jump Judge and Scorer Forms

Dave has improved the Jump forms to include a page break after each event group so that we can print just the group that we need. Keep in mind that if you select your PDF printer to produce the forms, save them in your tournament folder, then you can print the forms that you need when you are ready. If you add skiers to the groups after your original printing, then it is easy to run the PDF writer again to update the forms and save your paper and ink. He has also added the Ramp Height to the skier information, so that we are all on the same page during the Jump events.

Splash Eye Running Orders

A special XML file is now available in the Running Order window by clicking on the SplashEye icon and that will produce a file in your tournament folder that can be exported to a flash drive to be imported into SplashEye for all events for the event officials. This file will use the event file name > name_SplashEye as the file name. This file is for the computer to use and is not for human consumption.

NCWSA Updates

The NCWSA has changed their registration template and the program has been updated to accept the new template import.

The Slalom, Jump and Trick forms have been updated to include the Team codes on the forms for collegiate tournaments.

We are still waiting on the 2014 NOPS tables and they will be included in a new version ASAP once they are received. Until that time, please do not finalize your tournaments and submit them for processing. The tournament uploads are not being done at this time by the regionals Seeding representatives. We appreciate your patience on this and you will receive a newsletter as soon as the new version is available.
