This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

Update 4.0.1.11 is Available for Downloading

The updated version 4.0.1.11 is now available for download. Several minor program glitches that were preventing the closure of some windows and the program itself and a timing glitch for a pass in jumping, have been corrected with this update. In addition, the following errors were corrected.

NCWSA Event Group Exports

When scoring an NCWSA tournament the scorers could not export the event groups for slalom, tricks or jumping for scoring. This export is now working properly.

AWSA Records List Updated

The list of AWSA records has been updated as of the most recent list of approved records.

Trick Record Application Updated

The trick record application has been updated by Jerry Jackson, the Chair of the Technical committee regarding the trick ski dimension questions.

We still have tournaments going on in central Florida for a few more weeks.

Happy Halloween!
