---

This newsletter is for you, the user, to inform you of problems that have been sent in from scorers across the nation and the solutions for those problems. We will be sending this out from time to time to keep you informed and assist you in usage of the program. If you have a problem or issue that needs to be addressed send an email to the editor and we will get your problem addressed immediately and keep all of the users informed of the problems/solutions involved.

## **Update 5.0.1.2 is Available for Downloading**

The updated version 5.0.1.2 is now available for download.

## **Database Old or Corrupt Message**

There is nothing wrong with the 2018 database that you have been using this year and Dave has fixed the coding issue so that this message will not reappear in the near future. I say the near future, because as he expands the capabilities of the program and utilizes more information from the main server database, there may be a need to download a new database at some point. We will inform you via this newsletter when you need to download a new database.

## **Age Division Re-alignments**

The updated age division re-alignments have been installed in the program for the 2019 ski year.

Men 4 and Women 4 - 45 – 54 years inclusive

Men 5 and Women 5 – 55 – 59 years inclusive

The necessary changes have also been made to align the event standards with the IWWF for these skiers.

## **Men 7 & 8 Speeds Adjusted**

The Men 7 and Men 8 maximum jump speed has been updated to 51kph/31.7mph and the Men 8 slalom maximum speed has also been updated to 52kph/32.3mph.

## **Men 3 Maximum Ramp Height Changed**

The Men 3 maximum ramp height has been changed to 5.5' to meet the IWWF standards for this age group.

**2019 NOPS Values Installed**

The 2019 NOPS values table has been installed in the program. The WSTIMS Overall scores will now reflect the 2019 values along with the AWSA Ranking List which recalculates the score independently.

Enjoy your fall holidays and skiing activities.
