

## WSTIMS For Windows Fix List

Status	Priority	Program Version	Component	Issue	Notes
Closed	H	5.0.0.5	Registration	When searching for member names that contain an apostrophe are throwing an exception. This is true whether searching locally or USAWS	Handled strings with special characters
Closed	L	5.0.0.5	Registration Template	Process is getting a 404 when attempting to download members for a sanction that is not approved. Shouldn't allow any downloads but should show a message	Added check to only access approved tournaments. Now the user will get a 401 when accessing the tournament.
Closed	H	5.0.0.5	CodeValueList	2019 Natique has been approved for use during the 2018 ski season.	Boat added to approved boat list
Closed	M	5.0.0.5	Slalom Entry	Occasional issues have been encountered with the dialog for indicating either speed or line length for the next pass. On some computers it acted as though enter was hit twice and the dialog was not showing and simply using the default selection	Changed the type of dialog being used that I believe we will eliminate this odd behavior.
Closed	M	5.0.0.5	Slalom Entry	In a class L event would like the next pass to automatically use the next line for skiers with a max speed of less than 36.	When the skier is at the division max that is less than 36 MPH automatically move to the next line length
